

Dear Sir/Madam,

I have recently completed my Bachelor's from India, in Computer Science I am writing to apply for the Job offered by you. Please find enclosed my CV as requested.

In 2019, I graduated from Pune University in India includes 3 years of a Bachelors Degree in Computer Science. Through my years of studying, I became fascinated by various techniques such as Mobile Technologies, Web Technologies, and many more, and how the modern world is indulging data to do future predictions and analytics. For this reason during the last 3 years of bachelor degree, I participated in different projects such as "Hotel Management", "Pharmacy Management System" and "Notice Board Android app". Among the projects I also worked on as a freelancer, the most significant for me was one of the freelancing projects titled as "FriendsBook" which is similar to "WhatsApp".

The projects that I have experienced, all were directly or indirectly related to development using various types of technologies such as Java, SpringBoot, Flutter, ReactJS, and XML. Moreover, for the database, I have used a variety of databases such as PostgreSQL, MySQL, and Firebase. I believe Data is the heart of any software development life-cycle, that is why I like and enjoy it the most.

Besides studying and research, I have 3 years of working Experience as a Software Developer in two MNCs in Atos as Junior Java Developer at the Pune location (in India) for 2 years and in Deloitte for the same position as a Senior Java Developer and currently working for around 8 months, during which, I have been given an opportunity to explore most trending technologies in the market such as Azure, SpringBoot, and Hibernate as well as Python as a programming language, Azure DevOps and many more services.

Key skill-sets that I have developed are as follows:

1. Database Role (IaaS, PaaS)
2. Cloud (Azure) – SQL Database, Data Factory, Storage Account & Other Data Services
3. SpringBoot, Spring, Hibernate and ReactJS

In the interest of my skills, I have also completed a Microsoft certification named as:

- **AZ-900 - Microsoft Azure Fundamentals**
- **AZ-204- Developing Solutions for Microsoft Azure**

I am aware of the dedication and perseverance that is needed to achieve the best results in this field and I believe that my experience will allow me to get it. I think that it is a great opportunity for me to demonstrate my abilities and acquire new skills, so I hope to be selected for this position.

Thank you for your time and consideration. I'll be more than happy to provide any further information or documents if required.

Sincerely,
Shubham Kariya
